

PERSONAL EXPLANATION

HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 2, 2010

Mrs. CAPPS. Madam Speaker, I was not able to be present for the following rollcall votes on February 25, 2010 and February 26, 2010; and I would have voted as follows: Rollcall No. 67, "no"; rollcall No. 68, "yes"; rollcall No. 69, "yes"; rollcall No. 70, "yes"; rollcall No. 71, "yes"; rollcall No. 72, "no"; rollcall No. 73, "yes"; rollcall No. 74, "yes."

EXPRESSING THE SENSE OF THE
HOUSE OF REPRESENTATIVES
ON RELIGIOUS MINORITIES IN
IRAQ

SPEECH OF

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. LEVIN. Madam Speaker, I rise in support of H. Res. 944, which recognizes the persecution and displacement of ethnic and religious minorities in Iraq. This resolution calls on the Iraqi and United States governments to better protect the rights of persons of all ethnicities and religions.

This resolution comes as the Chaldean community mourns the two-year anniversary of the murder of Archbishop Paulos Faraj Rahho. Archbishop Rahho dedicated his life to the Chaldean Church in Mosul and sought to build interfaith relationships while advocating for the inclusion of Chaldeans and other vulnerable populations in the new Iraqi state.

These vulnerable populations include Chaldeans, Assyrians, Turkmen, Sabean Mandeans, Yazidis, and Syriacs. Their unique languages and histories are among the oldest of the Mesopotamian region. Together, they represent the richly diverse heritage of Iraq.

Since 2003, however, members of their communities have suffered marginalization, harassment, and violence. Many have been forced to seek safety away from their homes, often outside the country's borders. Ethno-religious minorities formerly comprised approximately five percent of Iraq's population; today, they comprise almost twenty percent of all Iraqi refugees registered with the United Nations Refugee Agency.

Minorities fear such rates of displacement threaten the very future of their communities. Continued sectarian violence prevents the free exercise of religion, cultural expression, and political participation that are fundamental to democracy. This resolution underscores the importance that Iraq's upcoming elections be free, fair, and safe, and that the rights of its minority populations be protected.

Madam Speaker, I urge my colleagues to join me in supporting H. Res. 944 and in urging meaningful support for Iraq's ethnic and religious minorities.

INTRODUCTION OF THE "ACTIVE
COMMUNITY TRANSPORTATION
ACT OF 2010"

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 2, 2010

Mr. BLUMENAUER. Madam Speaker, today I am proud to introduce the Active Community Transportation Act, legislation that will provide concentrated, long term funding for communities to implement active transportation systems. Communities across the country are realizing the importance of encouraging active lifestyles, for the health of their citizens, the environment, and the economic strength of the community itself. As only 68 percent of Americans are licensed drivers, we should provide transportation options for those who don't have access to a car, generally the elderly and the young. Since half of the trips taken in the United States today are within a 20-minute bicycle ride, and a quarter of all trips are within a 20-minute walk, there are plenty of opportunities to incorporate walking and biking into Americans' daily lives.

Americans will walk and bike if these modes are made safe and convenient. However, our nation has failed to invest adequately in pedestrian and bicycle networks to make active transportation a viable choice for routine travel. Too often we take for granted the value of being able to bike and walk to work. It is time for the federal government to support infrastructure investments to make walking and biking safe and convenient for all Americans. Investing federal dollars to create walkable and bikeable communities is also a cost-effective way to create jobs and transportation choices. In my hometown of Portland, Oregon, our investment of \$60 million created 274 miles of bike lanes, more than doubled the amount of people who commute by bike and provided between 850 and 1,150 jobs. This is just one of many stories I have heard about the impact that active transportation infrastructure has on people's health, their daily lives, and their pocketbooks.

The Active Community Transportation Act will help communities to implement comprehensive, strategic active transportation systems to make walking and bicycling safe, accessible and convenient for Americans, thereby increasing activity levels, lowering emissions and creating healthier, more vibrant communities.

RECOGNIZING THE AQUARIUM OF
THE PACIFIC

HON. LAURA RICHARDSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 2, 2010

Ms. RICHARDSON. Madam Speaker, I rise today to salute the Aquarium of the Pacific located in my community of Long Beach, California, for receiving the prestigious Super Nova Star of Energy Efficiency from the Alliance to Save Energy, a coalition of prominent business, government, environmental, and consumer leaders who promote the efficient and clean use of energy to benefit consumers, the environment, economy, and national secu-

ity. Each year the Alliance to Save Energy recognizes companies, learning institutions, state offices, and government programs for their efforts to promote energy efficiency domestically and globally. My constituents at the Aquarium of the Pacific received the Super Nova Star Award on September 17, 2009, at the Alliance to Save Energy Gala in Washington, DC.

Madam Speaker, the Aquarium was chosen for this globally recognized award because it is the most energy efficient business in the Nation with annual revenues under \$50 million. The Aquarium became the first among museums, zoos, and other aquariums in this country to certify its greenhouse gas emissions with a third-party, the California Climate Action Registry. This led to its being named as a Climate Action Leader with the Climate Action Registry in 2007. The Aquarium of the Pacific has used energy-efficient practices to maintain steady kilowatt-hour usage for the past 8 years despite rising visitor numbers.

It is no surprise to me that the Aquarium of the Pacific received such a prestigious award because it is a pioneer of marine education and energy efficiency in my district. In 2008, the Aquarium inaugurated a new environmental classroom that was recognized as Long Beach's first LEED-platinum certified building. The classroom achieved LEED-platinum certification because it uses solar power, a green roof, a rainwater capture system, and a highly efficient pool pump, among other energy and water efficiencies. The Aquarium is committed to achieving LEED platinum or gold certification for all future projects and is setting an excellent example for how other businesses and institutions in my district can prioritize and achieve energy efficiency.

Madam Speaker, the Aquarium of the Pacific is a vital part of my constituents' community environmental conservation efforts. The Aquarium's Green Team task force organizes environmentally friendly activities such as an annual street cleanup day, an Earth Day festival, a sustainable seafood initiative, and a watershed and ocean literacy program. As the Aquarium continues to grow, one of the underlying objectives of the master plan is to increase attendance by expanding the facility's capacity and conservation programs without increasing energy and potable water usage.

Madam Speaker, I also want to commemorate the Aquarium of the Pacific for its ongoing efforts to broaden the public's understanding of the Pacific Ocean and its complex ecosystem. The Aquarium's mission is to instill a sense of wonder, respect, and stewardship for the Pacific Ocean, its inhabitants, and ecosystems. It is the largest aquarium in Southern California and the fifth largest in the nation. With 200,000 school children visiting annually, the Aquarium of the Pacific provides a fun and educational experience for students of all ages and backgrounds through its interactive exhibits and daily presentations. The Aquarium hosts a variety of educational programs, cultural festivals, classes and courses, offsite field trips, and renowned guest speakers to connect Long Beach's diverse community with the Pacific Ocean's diverse ecosystem.

I applaud the Aquarium of the Pacific for its hard work and dedication both to educating the community of Long Beach about marine environments and to mitigating the effects of climate change. I ask my fellow colleagues to
